WORK EXPERIENCE

Web Development Intern
Hughes Systique Corporation

06/2023 - 07/2023   *Gurugram*

Achievements/Tasks
- Developed and maintained dynamic web applications using PHP and MySQL, enhancing database interactions and server-side functionalities.
- Created and styled user-friendly interfaces with HTML, CSS, and JavaScript, improving overall user experience and accessibility.
- Implemented responsive design techniques to ensure compatibility across various devices and screen sizes.

SKILLS

| HTML | CSS | Java Script | Php | MySql |
| Python | C | C++ | Bootstrap | Django |

PERSONAL PROJECTS

Digital Wedding Card
- Created an interactive digital wedding card using HTML, CSS, Bootstrap, and JavaScript. Designed a responsive layout with Bootstrap and custom-styled elements with CSS. Added interactive features like an RSVP form and countdown timer with JavaScript. Deployed the project on GitHub Pages for easy access and sharing. The card provided a modern, engaging invitation experience for guests.

Personal Portfolio
- Created a personal portfolio website using HTML, CSS, Bootstrap, and JavaScript, deployed via GitHub. The site features a responsive design with Bootstrap, showcasing projects, skills, and experience. Custom CSS enhanced the visual appeal, while JavaScript added interactive elements like smooth scrolling. Deployed on GitHub Pages, the portfolio offers a professional and accessible online presence.

CERTIFICATES

Full Stack Development (Udemy)
"I have successfully completed the Full Stack Development program, mastering HTML, CSS, JavaScript, Python, and SQL."

Python Basic (HackerRank)
Completed the Python Basics course on HackerRank, demonstrating proficiency in fundamental programming concepts and problem-solving skills.
